SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Trade name: LASAL™ 201
SDS no: 217004

1.2. Relevant identified uses of the substance or mixture and uses advised against
Relevant identified uses: Industrial and professional. Perform risk assessment prior to use. Test gas/Calibration gas. Laboratory use. Contact supplier for more information on uses.
Uses advised against: Consumer use.

1.3. Details of the supplier of the safety data sheet
Supplier:
AIR LIQUIDE Deutschland GmbH
Luise-Rainer-Straße 5
40235 Düsseldorf - GERMANY
T +49 (0)211 6699-0 - F +49 (0)211 6699-222
info@airliquide.de

E-Mail address (competent person): info.SDB@airliquide.de

1.4. Emergency telephone number
Emergency telephone number: +49 (0)2151 398668
Availability: (24 / 7)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
Classification according to Regulation (EC) No. 1272/2008 [CLP]
Physical hazards: Gases under pressure: Compressed gas H280
Health hazards: Reproductive toxicity, Category 1A H360D
Specific target organ toxicity — Repeated exposure, Category 2 H373

2.2. Label elements
Labelling according to Regulation (EC) No. 1272/2008 [CLP]
Hazard pictograms (CLP):

Signal word (CLP): Danger
Hazard statements (CLP):
H280 - Contains gas under pressure; may explode if heated...
H360D - May damage the unborn child..
H373 - May cause damage to organs through prolonged or repeated exposure..

Precautionary statements (CLP):
- Prevention: P202 - Do not handle until all safety precautions have been read and understood..
P260 - Do not breathe gas, vapours..
P280 - Wear protective gloves, protective clothing, eye protection, face protection..
- Response: P308+P313 - IF exposed or concerned: Get medical advice/attention.
- Storage: P403 - Store in a well-ventilated place..
P405 - Store locked up..

Supplemental information: Restricted to professional users.
SAFETY DATA SHEET

LASAL™ 201

2.3. Other hazards

: None.

SECTION 3: Composition/information on ingredients

3.1. Substances : Not applicable.

3.2. Mixtures

Full text of H-statements: see section 16

Contains no other components or impurities which will influence the classification of the product.

*1: Listed in Annex IV / V REACH, exempted from registration.

*2: Registration deadline not expired.

*3: Registration not required: Substance manufactured or imported < 1t/y.

SECTION 4: First aid measures

4.1. Description of first aid measures

- Inhalation : Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.

- Skin contact : Adverse effects not expected from this product.

- Eye contact : Adverse effects not expected from this product.

- Ingestion : Ingestion is not considered a potential route of exposure.

4.2. Most important symptoms and effects, both acute and delayed

: Refer to section 11.

4.3. Indication of any immediate medical attention and special treatment needed

: None.
SECTION 5: Firefighting measures

5.1. Extinguishing media
- Suitable extinguishing media : Water spray or fog.
- Unsuitable extinguishing media : Do not use water jet to extinguish.

5.2. Special hazards arising from the substance or mixture
Specific hazards : Exposure to fire may cause containers to rupture/explode.
Hazardous combustion products : Carbon monoxide.

5.3. Advice for firefighters
Specific methods : Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.
If possible, stop flow of product.
Use water spray or fog to knock down fire fumes if possible.
Move containers away from the fire area if this can be done without risk.

Special protective equipment for fire fighters : Wear gas tight chemically protective clothing in combination with self contained breathing apparatus.
Standard EN 943-2: Protective clothing against liquid and gaseous chemicals, aerosols and solid particles. Gas-tight chemical protective suits for emergency teams.
Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
: Try to stop release.
Evacuate area.
Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.
Ensure adequate air ventilation.
Act in accordance with local emergency plan.
Stay upwind.

6.2. Environmental precautions
: Try to stop release.

6.3. Methods and material for containment and cleaning up
: Ventilate area.

6.4. Reference to other sections
: See also sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Safe use of the product : The product must be handled in accordance with good industrial hygiene and safety procedures.
Only experienced and properly instructed persons should handle gases under pressure.
Consider pressure relief device(s) in gas installations.
Ensure the complete gas system was (or is regularly) checked for leaks before use.
Do not smoke while handling product.
Avoid exposure, obtain special instructions before use.
Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt.
Use only oxygen approved lubricants and oxygen approved sealings.
Avoid suck back of water, acid and alkalis.
Do not breathe gas.
Avoid release of product into atmosphere.

**Safe handling of the gas receptacle**

Refer to supplier's container handling instructions.
Do not allow backfeed into the container.
Protect cylinders from physical damage; do not drag, roll, slide or drop.
When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders.
Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use.
If user experiences any difficulty operating cylinder valve discontinue use and contact supplier.
Never attempt to repair or modify container valves or safety relief devices.
Damaged valves should be reported immediately to the supplier.
Keep container valve outlets clean and free from contaminants particularly oil and water.
Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment.
Close container valve after each use and when empty, even if still connected to equipment.
Never attempt to transfer gases from one cylinder/container to another.
Never use direct flame or electrical heating devices to raise the pressure of a container.
Do not remove or deface labels provided by the supplier for the identification of the cylinder contents.
Suck back of water into the container must be prevented.
Open valve slowly to avoid pressure shock.

**7.2. Conditions for safe storage, including any incompatibilities**

Observe all regulations and local requirements regarding storage of containers.
Containers should not be stored in conditions likely to encourage corrosion.
Container valve guards or caps should be in place.
Containers should be stored in the vertical position and properly secured to prevent them from falling over.
Stored containers should be periodically checked for general condition and leakage.
Keep container below 50°C in a well ventilated place.
Store containers in location free from fire risk and away from sources of heat and ignition.
Keep away from combustible materials.

**7.3. Specific end use(s)**

None.

**SECTION 8: Exposure controls/personal protection**

**8.1. Control parameters**

PNEC (Predicted No-Effect Concentration) : No data available.

### 8.2. Exposure controls

#### 8.2.1. Appropriate engineering controls

- Product to be handled in a closed system and under strictly controlled conditions.
- Provide adequate general and local exhaust ventilation.
- Preferably use permanent leak-tight installations (e.g. welded pipes).
- Systems under pressure should be regularly checked for leakages.
- Ensure exposure is below occupational exposure limits (where available).
- Consider the use of a work permit system e.g. for maintenance activities.

#### 8.2.2. Individual protection measures, e.g. personal protective equipment

- A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered:
  - PPE compliant to the recommended EN/ISO standards should be selected.
  - **Eye/face protection**
    - Wear safety glasses with side shields.
    - Standard EN 166 - Personal eye-protection - specifications.
  - **Skin protection**
    - **Hand protection**
      - Wear working gloves when handling gas containers.
      - Standard EN 388 - Protective gloves against mechanical risk.
    - **Other**
      - Wear safety shoes while handling containers.
      - Standard EN ISO 20345 - Personal protective equipment - Safety footwear.
  - **Respiratory protection**
    - Gas filters may be used if all surrounding conditions e.g. type and concentration of the contaminant(s) and duration of use are known.
    - Use gas filters with full face mask, where exposure limits may be exceeded for a short-term period, e.g. connecting or disconnecting containers.
    - Consult respiratory device supplier’s product information for the selection of the appropriate device.
    - Gas filters do not protect against oxygen deficiency.
    - Standard EN 14387 - Gas filter(s), combined filter(s) and standard EN136, full face masks .
    - Keep self contained breathing apparatus readily available for emergency use.
    - Self contained breathing apparatus is recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems.
    - Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.
  - **Thermal hazards**
    - None in addition to the above sections.

#### 8.2.3. Environmental exposure controls

- Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

- **Appearance**
  - Physical state at 20°C / 101.3kPa: Gas.
  - Colour: Mixture contains one or more component(s) which have the following colour(s): Colourless.
- **Odour**
  - Odourless.
- **Odour threshold**
  - Odour threshold is subjective and inadequate to warn of overexposure.
Melting point: Not applicable for gas mixtures.
Boiling point: Not applicable for gas mixtures.
Flash point: Not applicable for gases and gas mixtures.
Flammability range: Non flammable.
Relative vapour density at 20 °C: Not applicable.
Evaporation rate (ether=1): Not applicable for gases and gas mixtures.
Vapour pressure [20°C]: Not applicable.
Vapour pressure [50°C]: Not applicable.
Relative density, gas (air=1): Lighter or similar to air.
Solubility in water: Solubility in water of component(s) of the mixture:
  - Carbon dioxide: 2000 mg/l Completely soluble.
  - Carbon monoxide: 30 mg/l
  - Nitrogen: 20 mg/l
  - Oxygen: 39 mg/l
  - Xenon: 644 mg/l
  - Helium: 1.5 mg/l
pH value: Not applicable for gases and gas mixtures.
Partition coefficient n-octanol/water [log Kow]: Not applicable for gas mixtures.
Decomposition point [°C]: Not applicable.
Auto-ignition temperature: Non flammable.
Viscosity [20°C]: No reliable data available.
Explosive Properties: Not applicable.
Oxidising Properties: Not applicable.

9.2. Other information

Molar mass: Not applicable for gas mixtures.
Other data: None.

SECTION 10: Stability and reactivity

10.1. Reactivity
No reactivity hazard other than the effects described in sub-sections below.

10.2. Chemical stability
Stable under normal conditions.

10.3. Possibility of hazardous reactions
None.

10.4. Conditions to avoid
None under recommended storage and handling conditions (see section 7).
Avoid moisture in installation systems.

10.5. Incompatible materials
For additional information on compatibility refer to ISO 11114.

10.6. Hazardous decomposition products
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity: Classification criteria are not met.

Carbon monoxide (630-08-0)

<table>
<thead>
<tr>
<th>LC50 inhalation rat (ppm)</th>
<th>3760 ppm/1h</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1300 ppm/4h</td>
</tr>
</tbody>
</table>

Skin corrosion/irritation: No known effects from this product.
Serious eye damage/irritation: No known effects from this product.
Respiratory or skin sensitisation: No known effects from this product.
Germ cell mutagenicity: No known effects from this product.
Carcinogenicity: No known effects from this product.

Reproductive toxicity:
- Toxic for reproduction: Fertility: May damage fertility.
- Toxic for reproduction: Unborn child: May damage the unborn child.

STOT—single exposure: No known effects from this product.

STOT—repeated exposure: May cause damage to organs through prolonged or repeated exposure.

Aspiration hazard: Not applicable for gases and gas mixtures.

SECTION 12: Ecological information

12.1. Toxicity
Assessment: No ecological damage caused by this product.

EC50 48h - Daphnia magna [mg/l]: No data available.
EC50 72h - Algae [mg/l]: No data available.
LC50 96 h - Fish [mg/l]: No data available.

12.2. Persistence and degradability
Assessment: No data available.

12.3. Bioaccumulative potential
Assessment: No data available.

12.4. Mobility in soil
Assessment: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.

12.5. Results of PBT and vPvB assessment
Assessment: Not classified as PBT or vPvB.

12.6. Other adverse effects
Other adverse effects: No known effects from this product.
Effect on the ozone layer: None.
Effect on global warming: Contains greenhouse gas(es).

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Contact supplier if guidance is required.
Must not be discharged to atmosphere.
Ensure that the emission levels from local regulations or operating permits are not exceeded.
Refer to the EIGA code of practice Doc.30 "Disposal of Gases", downloadable at http://www.eiga.org for more guidance on suitable disposal methods.
Return unused product in original cylinder to supplier.

List of hazardous waste codes (from Commission Decision 2000/532/EC as amended):
- 16 05 04 *: Gases in pressure containers (including halons) containing hazardous substances.

13.2. Additional information
External treatment and disposal of waste should comply with applicable local and/or national regulations.
SECTION 14: Transport information

14.1. UN number

UN-No. : 1956

14.2. UN proper shipping name

Transport by road/rail (ADR/RID) : COMPRESSED GAS, N.O.S. (Helium, Carbon monoxide)
Transport by air (ICAO-TI / IATA-DGR) : Compressed gas, n.o.s. (Helium, Carbon monoxide)
Transport by sea (IMDG) : COMPRESSED GAS, N.O.S. (Helium, Carbon monoxide)

14.3. Transport hazard class(es)

Labelling:

2.2 : Non-flammable, non-toxic gases.

Transport by road/rail (ADR/RID)
Class : 2.
Classification code : 1A.
Hazard identification number : 20.
Tunnel Restriction : E - Passage forbidden through tunnels of category E.

Transport by air (ICAO-TI / IATA-DGR)
Class / Div. (Sub. risk(s)) : 2.2

Transport by sea (IMDG)
Class / Div. (Sub. risk(s)) : 2.2
Emergency Schedule (EmS) - Fire : F-C.
Emergency Schedule (EmS) - Spillage : S-V.

14.4. Packing group

Transport by road/rail (ADR/RID) : Not established.
Transport by air (ICAO-TI / IATA-DGR) : Not established.
Transport by sea (IMDG) : Not established.

14.5. Environmental hazards

Transport by road/rail (ADR/RID) : None.
Transport by air (ICAO-TI / IATA-DGR) : None.
Transport by sea (IMDG) : None.

14.6. Special precautions for user

Packing Instruction(s)

Transport by road/rail (ADR/RID) : P200.
Transport by air (ICAO-TI / IATA-DGR)
   Passenger and Cargo Aircraft : 200.
   Cargo Aircraft only : 200.
Transport by sea (IMDG) : P200.
Special transport precautions: Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency.

Before transporting product containers:
- Ensure there is adequate ventilation.
- Ensure that containers are firmly secured.
- Ensure cylinder valve is closed and not leaking.
- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
- Ensure valve protection device (where provided) is correctly fitted.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

: Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU-Regulations

Restrictions on use: Restricted to professional users (Annex XVII REACH).

National regulations

National legislation: Ensure all national/local regulations are observed.

Germany

Water hazard class (WGK): Water hazard class (WGK) 1, Slightly hazardous to water (Classification according to AwSV, Annex 1)

15.2. Chemical safety assessment

A CSA does not need to be carried out for this product.

For the following substances of this mixture a chemical safety assessment has been carried out

Carbon monoxide

SECTION 16: Other information

Abbreviations and acronyms: ATE - Acute Toxicity Estimate
- CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008
- EINECS - European Inventory of Existing Commercial Chemical Substances
- CAS# - Chemical Abstract Service number
- PPE - Personal Protection Equipment
- LC50 - Lethal Concentration to 50 % of a test population
- RMM - Risk Management Measures
- PBT - Persistent, Bioaccumulative and Toxic
- vPvB - Very Persistent and Very Bioaccumulative
- STOT- SE : Specific Target Organ Toxicity - Single Exposure
- CSA - Chemical Safety Assessment
- EN - European Standard
- UN - United Nations
- ADR - European Agreement concerning the International Carriage of Dangerous Goods by

DISCLAIMER OF LIABILITY

: Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out.
Details given in this document are believed to be correct at the time of going to press.
Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
